

Cost Effective Video Wall DESIGN GUIDE

The Challenge:

To deliver large scale content to audiences in a dramatic and memorable ways while keeping within budget constraints.

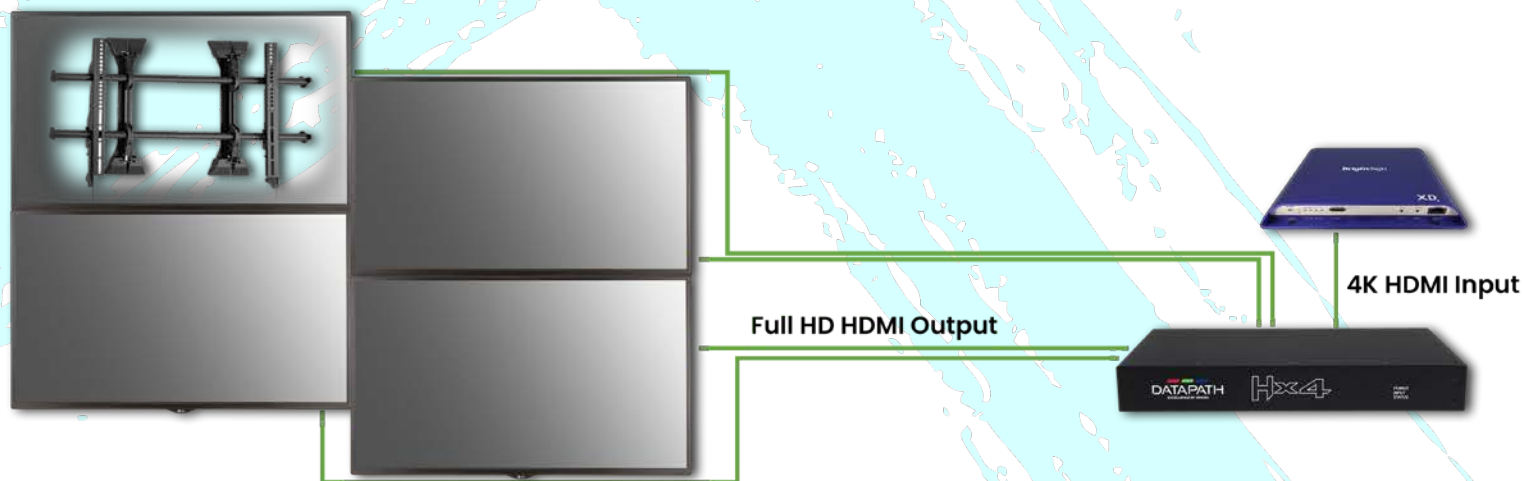

Our Solution:

A popular choice for advertising, corporate signage and live event visuals, Datapath Hx4 offers a cost-effective system that is both easy to use and simple to set up. Datapath's

Wall Designer software allows users to add displays from the ever-expanding database of displays, visualise their content and adjust capture regions to easily design complex videowalls of all sizes and configurations. BrightSign's XD234 provides the 4K content allowing each LG 49" panel to receive a native full HD resolution image from the Datapath Hx4.

Product	Function
Datapath Hx4	A stand-alone display wall controller with the capacity to run a single 4K HDMI source across four HD outputs in ultra-high definition. When used with the powerful Wall Designer application software, the Hx4 can represent any arrangement or configuration of the source image desired.
BrightSign XD234	A powerful 4K video engine capable of decoding one 4Kp60 video or two Full HD videos simultaneously and supports Dolby Vision and HDR10+ content. It includes the standard I/O package of Gigabit Ethernet, GPIO, IR, analogue/digital audio, and an M.2 SSD PCIe interface.
LG 49SM5KD	Full HD 49" display with a sleek design, 450 nit brightness and a 3-year 24/7 commercial warranty.
CHIEF LSM1U	Micro-adjustable static wall mount offers reduced installation time with enhanced post-installation stability and serviceability, improved cable management with redesigned endcaps.
