

## The Challenge:

The move towards smaller collaboration spaces presents the need for a room booking system providing users with visibility of available work spaces including room size and technology available.

## Our Solution:

Concierge Room Booking Systems allows management of an unlimited number of workspaces by providing an intuitive user interface, support for Google G Suite, Microsoft Exchange and Office 365, and advanced analytics for evaluating ROI.

Solstice provides an Operating System agnostic, turnkey solution combining enterprise-class wireless display package with Samsung's touch integrated 65" display to promote collaboration, learning and nurture a strong team approach.

Product	Function
<a href="#"><u>Concierge 10.1" Room Booking Display</u></a>	An innovative and flexible display solution for meeting room information and bookings. It uses a simple green and red display with side LEDs to instantly notify whether the room is available or in use, even from down the hallway. Compatible with all major calendars, the Display features hardened glass touch screen, Wi-Fi or Ethernet connectivity and can be Powered over Ethernet (PoE).
<a href="#"><u>Solstice POD</u></a>	Solstice enables multiple users to connect simultaneously to a shared display using a range of devices over a Wi-Fi or Ethernet network. With a Solstice-enabled display in the room, any number of users can instantly connect, share and control the display, fostering collaboration and decision-making.
<a href="#"><u>Samsung DM65EBR</u></a>	A ready-to-use, all-in-one E-Board display solution, the large 65" display includes a pre-assembled touch overlay offering a smoother, more interactive writing experience. The crystal clear Full HD display has 380 nit brightness, all supported by a 24/7 usage warranty.
<a href="#"><u>Chief XSM1U</u></a>	Installer-inspired Fusion fixed mount solves top flat panel installation problems, offering flexible adjustments for large displays with a low-profile display mounting solution. Chief upgraded their fixed wall mounts based on installer feedback and direct observations of installers in the field. New benefits include added stability, faster install, improved lateral shift, easier cable management and enhanced security.
